

Are you tired of writing down the tasks you perform and then having someone else key them into the system at a later time? Do you want to eliminate redundant paperwork and significantly increase your accuracy?

The QUICK® Purchasing/Inventory module is a mobile extension of the SunGard Public Admin functionality.

**QUICK® Public Administration Features:**

- Wireless freedom & flexibility
  - ◆ Work in the office over a wireless local area network (WLAN)
  - ◆ Work on the road over a wireless wide area network (WWAN)
- Online real-time access to SunGard applications
- Offline capability when you're not connected
- Ability to print bar coded labels for inventory & assets
- Increased accuracy via bar code scanning
- Reduction in errors
  - ◆ Elimination of paperwork
- Elimination of information redundancy
  - ◆ Manually record transactions such as issues/returns, and physical inventory
  - ◆ Enter information at a later time
- Purchasing/Inventory
  - ◆ Physical Inventory
  - ◆ Issues/Returns
- Fixed Assets
  - ◆ Physical Inventory
- Asset II Management
  - ◆ Physical Inventory

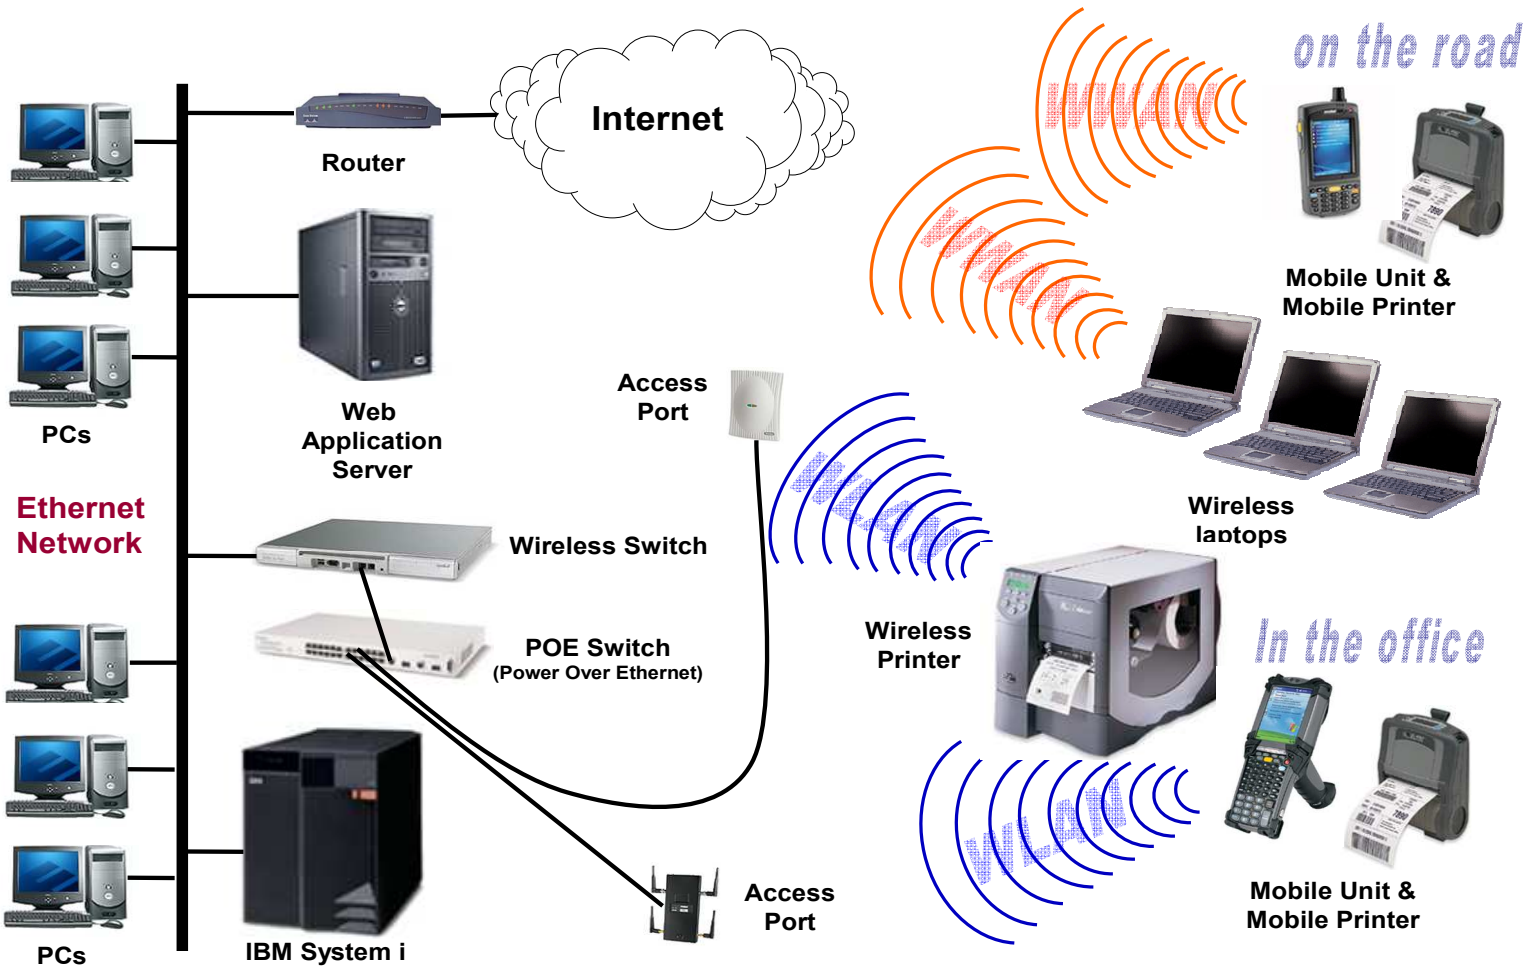

**"The solution provides a simple interface that can easily be used by our non-technical staff to pull parts for jobs. As a result, inventory is tracked more accurately than with our old paper forms. Quatred's staff was very professional and have the implementation process down to a science. This was one of the easiest implementations I've been through. Our warehouse staff is excited to have this solution."**

*Jay B. Trunnell, CISM, Information Technology Officer, Cucamonga Valley Water District*

The following are the minimum requirements for implementing the QUICK® Mobile Computing/Bar Coding Interfaces for SunGard public administration and public safety applications.

**QUICK**® Interface Overview Diagram

**Web Application Server**

- Microsoft® IIS 6.0
- Microsoft® .NET Framework 2.0
- IBM® iSeries Access V5R3M0 or higher (latest PTFs)
  - ♦ Only Data Access Component / .Net Data Provider

**IBM System i**

- V5R3M0 or higher
- SunGard® Public Admin or Public Safety Bar Coding Interface at 5.0.9.0 or higher

**Motorola MC70 or MC9090**

- QUICK® Interface For SunGard
- Microsoft® Windows Mobile 5.0
- Microsoft® .NET Compact Framework 2.0 SP2
- SQL Mobile Edition 2005
